WE ARE AUTHORIZED TO OFFER FOR SUBSCRIPTION Seven Per Cent. Cumulative Preferred Stock

AT PAR. The Preferred Stock is entitled to a cumulative preferred dividend of 7 per cent., payable semi-annually on Jan. 1 and July 1, and, in addition, to a proportionate share of all dividends declared in any year, after 7 per cent. has been paid on the other stocks outstanding. The Preferred Stock has also a preference in the assets of the Company in case of liquidation over all other stocks. The authorized capital stock of the Company Is

≥10,000,000, of which \$4,000,000 is Preferred Stock Shares \$50 each. The portion offered for subscription will be full

paid and non-assessable when taken and paid for Application will be made to list the stocks on the

New York and Boston Stock Exchanges. The proceedings taken by the Company to create this issue of Preferred Stock have been submitted to counsel, and they advise us that the reorganization and this issue of Preferred Stock are valid in law-The business of the Westinghouse Electric and Manufacturing Company has grown to its present large proportions in about five years. Its growth has been not only rapid, but continuous, and has fully kept pace with the remarkable development of the electrical industry. Sales are as follows:

The Company relies chiefly for success upon the quality and mechanical perfection of its work, although it has more than one thousand patents affording valuable protection against competition. The Company will continue to have the benefit of

the mechanical engineering ability of its founder,

Mr. Westinghouse. We have made an estimate of the assets of the combined Companies, and our examination has led us to believe that, after making liberal deductions for all foreseen contingencies, the assets of the reorganized Company will furnish ample security for the total issue of Preferred Stock, without taking into consideration the value of the patents at all, and that the working capital will be fully sufficient to conduct the business on an economical basis, the saving in the interest account alone being sufficient to pay full dividends on this issue.

& Sabject to certain reservations detailed in the prospectus, the examination of the accountants shows an average profit of \$443,140.52 per annum for the periods considered. We invite subscriptions to the above-mentioned Preferred Stock AT PAR, payable as follows:

MONEY, STOCKS AND BONDS.

Continued Raiding Caused a Decline Throughout the List of Shares. NEW YORK, Oct. 10 .- Money on call was easy, ranging from 3 to 412 per cent.; the last loan being made at 31/2 per cent.; clos-

ing offered at 31/2 per cent. Prime mercantile paper 54 @74 per cent. Sterling exchange was quiet and steady at \$4.80 for sixty-day bills and \$4.83 4 for

demand. The total sales of stocks to-day were 258,887 shares, including the following: Atchison, 62,115; Chicago Gas, 11,350; Erie, 18,210; Louisville & Nashville, 8,750; Missouri Pacific, 11,356; North American, 10,635; Northern Pacific prefered, 9,600; St. Paul.

22,170; Union Pacific, 7,610. The stock market to-day was again only moderately active, while weak in tone. While no sudden downward movement took place during the day, the steady pressure to sell caused material losses before the close of business. The pressure brought to bear was caused by another "bear" raid under the leadership of Mr. Cammack, whose brokers attacked the entire list, making a \$1.0812. Options declined 14 @25c on the general and uniform movement over the government reports, which indicated a whole market. There was no support accorp of about 520,000,000 bushels; besides corded prices anywhere, and only the natural strength of the market prevented a sudden break in some part of the list. There were only two really active stocks to-day-Atchison and St. Paul-but the former furnished about one-fourth of the entire business done. The opening of the market was in sympathy with a lower Lon-don market, and selling by the foreigners as well as the "bears" had the effect of opening the market at declines from Saturday's figures of from 4 to 1 per cent., Sugar, New England and Hocking Valley showing the largest losses. There was no

tion to the rule, and it was very strong in the early dealings in the face of the weakness in the rest of the list, rising 14 per cent, and holding the advantage to the close, though it was only fractionally higher owing to the decline at the opening. When well into the afternoon the leading shares, including Atchison, Missouri Pacific, Rock Island, C., C., C. & St. L., Wheeling & Lake Erie, Cordage, Sugar and some specialties, were all down over 1 per cent, from the opening figures, and the downward movement made little or no further progress for the rest of the day, covering keeping prices within narrow limits while making a recovery. The market finally closed duil and steady near the lowest prices reached. The list to-night is all lower, and the material losses include Sugar, 1'sc; Buffalo, Rochester & Pittsburg, 1%; Lake Shore, 1%; Atchison, C., C., C. & St. L. and Northwestern, each 14; Rock Island, St. Paul, Missouri Pacific and Wheeling & Lake Erie, each 11s, and Wabash preferred, 1

Railroad honds were quiet to dull, and the dealings extended to an unusually small number of issues. Atchison incomes were the only ones showing any animation, Total cales, \$800,500. The market remained in close sympathy with stocks, but failed to make the marked improvement that shares did. While prices this evening are generally lower, the final changes are in but few cases of importance.

Government bonds have been dull and steady. State bonds have been dull and steady. Closing quotations were:

TRADING AT CHICAGO.

#### Wheat Falls Off, but Corn Evinces Symptoms of a Boom.

LONDON, Oct. 12.-Bar silver, 44 13-16d per

CHICAGO, Oct. 12 .- Wheat opened weak

and lower to-day. The prime cause was the government crop report of Saturday. which was promulgated after the close of the board. It indicated the very large total of about 590,000,000 bu as the season's yield, which would give a surplus of about 230,000,000 bu for export, according to the local reports, and a heavy decline was looked for. Liverpool reported a decline of 4d in spot and 1d in futures, but London was 9d higher on California wheat to arrive, and New York started lower. The first sales here showed a decline of 14c from Saturday's close, but almost immediately began to develop strength, and eventually advanced 1c, but lost part of the

improvement. The early advance was the result of good buying orders from New York and some builish reports. One of these was the published statement that Germany and the United States had signed a convention by the terms of which al American cereals would be admitted into Germany duty free in return for the free admission to the United States of German beet sugar free of duty after Jan. 1 next. In spite of dispatches somewhat confirmatory of this report it was not generally believed here, but it, nevertheless, caused some covering by timid "shorts" and helped the advance. The news which had a more decidedly bullish effect on the market in the early trading was the signal service re-porting rain with probable snow on the unthreshed wheat shocks in the Northwest with continued clear dry weather in the Southwest, which it was argued would further delay winter wheat seeding. Logan, Schwartz-Dupee, Milmine-Bode-man and Gifford bought freely while Kennett and Hopkins, the leading sellers,

bought a good line early, but sold on subsequent advances. December opened at 984 @9816c, against 9912c on Saturday at the close, sold up to

984c, off to 984c, up to 994c, receded to 984c, rallied near the close to 985c, and closed at 98% c. Corn was nervously strong. The market opened 4 @ 20 lower on the government report placing the condition at 92.5 against 91.1 last month, and indicating a crop of 2,000. 000,000 bushels, but soon sold up 1@2½c on liberal purchases by the local shipping contingent and "shorts" who came in on the advance. Realizing carried the market back 12 201c, after which it ruled firm. October opened at 5214c against 52c at the close on Saturday, sold up, irregularly, to 55c, reacted to 54c, around which figure it held for a long time, then, near the close, advanced to 5434c, and closed at 5412c. Oats were quiet and steady, and closed 14

a sc higher. Pork was active, but lower early, though recovering most of the decline later in the day. The liquidation was again very general, and the demand was slack, and bids much reduced. The big stock of pork here, which will become irregular on Jan. 1, was the depressing factor, and the weakness in this dragged down the long future. The close shows a loss of 71/2 @15c. Lard is .071/2 @.121/2c lower, and ribs, .071/2 @.15c. The leading futures ranged as follows:

The Foreign Grain Trade. LONDON, October 12.-The Mark Lane Express, in its weekly review of the British grain trade, says: "An improved demand for flour has been the feature during the week. In London the stocks of flour are 80,000 quarters below those of July, and elsewhere there has been a decided diminution in the stocks. The yield of fine, ary English wheat exceeds the expectations, especially in the southern counties. In the northern and western counties it is much inferior. The recovery in prices at New York and Paris and the reduction of American exports have strengthened foreign wheat. Millers are inclined to postpone purchases pending the arrival of 525,000 quarters, which are expected shortly. Oats, corn and barley have each advanced 6d. At to-day's market there was a better in-quiry for English wheat and the price advanced 1s, making the quotation 37s 9d. Good white California brought 45s, and inferior southeastern European 67s. American red winter advanced is. Foreign flours were 6d higher. Rye was scarce and 9d higher. Beans and peas were firm. Corn on the spot was firm, and for forwarded

Rio cargoes, fair, 16 c; No. 7, 134c. MINNEAPOLIS, Oct. 12.-There was a bullish tone to the wheat market to-day. The increase in stocks reported was not as heavy as has been the rule for a few weeks; there was rain in Minnesota and North Dakota, which promised further injury to wheat, so that the situation as a whole was stronger than last week. Buyers were rather limited at the opening, however, even in the face of favorable conditions. They wished to see what would develop during the morning, and so made bids conservative. The opening was 98c, 112c under Saturday's closing, but as soon as the reports of heavy buying in New York on foreign orders were received there was prompt yielding, and the market was soon bid up to 944c, without any attendant excitement, however. #### INDIANAPOLIS MARKETS.

With the Favorable Weather Trade Steadily Improving-Fluctuations in Values Few. INDIANAPOLIS, Oct. 12.-The morning trains brought in a number of country merchants, and the wholesale streets to-day were active. Retail men show a disposition to stock up in anticipation of good trade. The dry-goods men are gratified over the improvement in business the last few days, and grocers are experiencing a brisk business. Coffees and sugars carry an easy tone. The hardware men are surprised that their business continues so good; usually in October it drops off, but this year is an exception. Hog products are moving quite freely at the revised quotations of to-day. The flattest is the hide market. The flour market is still a disappointing one to the millers. The produce men are doing enough business to make some money, but prices rule so low, except on eggs, that a good deal of truck must be handled. Prices in the produce, fruit and vegetable line range about as on Saturday.

The local market was dull to-day. If anybody wanted either cereal it was not shown in the bidding. Prices were lower on several grades of wheat and corn and oats, track bids ranging as follows: Wheat-No. 2 red, 96c; No. 3 red, rejected, 85@90c; wagon wheat, 95c. ## VAN HOUTEN'S COCOA. PLEASE READ THIS.

90 Cents a pound for VAN HOUTEN'S COCOA ("Best & Goes Farthest") seems to be high. Let us compare it with the price of Coffee:\$ 1 lb. of good coffee costs at least 30c., makes 31 half-pint cups. 3 " " " therefore 90c., " 93 " "

1 " " V. H. Cocoa " also 90c., " 150 " " Which is the Cheaper Drink?

90c. = 93 cups of Coffee, "V.H.Cocoa!
